Customized Lake Maps

One of our most unique items at the shop is our customized lake maps. These maps are designed and printed by a small shop owner from Northern Minnesota. They have a vintage look to them, with water marks in the paper and sanded paint on the frames. The maps are available in 17" x 24" or 24" x 33", either framed or unframed. Glass inside the frame is also an option. We typically have 17" x 24" framed, no glass maps in stock of Soo Lake, Connors Lake, Musser Lake, Solberg Lake, and the Phillips Chain.

The great thing about these maps is that she can make a map of nearly every body of water in the United States! We have had variety of maps made, from Lake Superior to small unnamed lakes, and even a lake in Canada. There is a \$10 set up fee for first time lake maps.

This same shop owner also makes our Every Summer Has a Story signs. These signs are also customizable, including color choices of red, green, black or blue.

Consider having one of these maps in your cabin or home as a reference point, you'll be surprised how often you use it! Or put map or sign in your work place as a reminder of your days spent on the lake!
